Coform Australia is proudly a 100% Australian Owned company producing Australian Made products.

LIFE TIME WARRANTY

* Warranty applies to the mechanical operation of the unit and does not cover panel damage or finish. Acceptance of goods is evidence that they were received in good order and condition

* Claims for warranty work must be supported by a copy of the original purchase invoice to establish the purchase date and applies to original purchases only. The warranty does not apply to second hand goods and is not transferable.

* The warranty is deemed to start from the date of purchase. Goods must be returned to the factory at the purchasers expense. The customer will also be responsible for the cost of collection of the goods. The company reserves the right to dispose of any product left at the factory for a period in excess of six months after notification of completion of repairs.

* The company reserves the right to replace goods with product of similar specifications if the fault cannot be repaired. Given that paint and powder lots may vary slightly, no guarantee can be given that the replacement goods will exactly match to goods being replaced.

* Warranty does not apply to damage caused by abuse, excessive loading or inappropriate use of the goods, including unauthorised attempts at repair.

* Goods must be correctly maintained to qualify for the warranty.

* The warranty is limited to the cost of repairs and no responsibility is accepted for consequential damages.

ENVIRONMENTAL POLICY

We are committed to providing high quality products whilst continuously monitoring and reducing our impact on the environment both internal to our operations and with regard to the wider community.

The stakeholders in this process are management, employees, government agencies, our neighbors and our customers.

* We undertake that we will comply with all relevant regulations and codes of practice in relation to both our operations and our products.

* We will continue to inform our employees regarding any issues concerning their personal health and safety.

* We will continuously monitor all outputs to ensure they comply with emission standards and we will work to reduce emissions wherever possible.

* We will continuously monitor our inputs to ensure that they comply with all relevant standards and work to maximize our use of recycled or recyclable materials.

* We undertake to inform our customers and any relevant authority regarding any issue that affects the safety or health of the general public with regards to either our products or operations.

* We undertake to formulate contingency plans for the containment of problems arising from spillages, fire, noise or fumes and ensure that our employees receive training in such plans.

* We will continuously monitor our energy usage and work to improve the efficiency of our plant across all areas.
